

SMI Experiment Suite Scientific Packages

SMI Experiment Suite Scientific Packages support key research paradigms, such as Visual Paired Comparison, Visual World and Preferential Looking.

The dedicated toolset provides higher efficiency and less manual work through the entire workflow.

		Basic	Advanced	Premium
Design	Text, image, pdf single and composite stimuli	√	√	√
	Video and web stimuli, screenrecording	x	√	√
	Stimuli conditions and annotations	√	√	√
	Tasks and randomization	√	√	√
	Trigger AOIs	√	√	√
	Participant properties and questionnaires	√	√	√
Record	0,1,2,5,9,13-point calibration modes, customized calibration	√	√	√
	Validation	√	√	√
	Live annotations	√	√	√
	Remote observation	√	√	√
	Key and mouse logging	√	√	√
	TTL logging and sending	√	√	√
Analyze & Report	Gaze replay, bee swarm, scan path, heat map, focus map	√	√	√
	Retrospective Think Aloud (RTA)	x	√	√
	Offline annotations	√	√	√
	Static AOIs	√	√	√
	Dynamic AOIs	x	√	√
	Semantic Gaze Mapping	x	x	√
	Key Performance Indicators (KPIs), AOI sequence chart, binning chart, gridded AOIs	√	√	√
	Proportion of looks analysis	x	x	√
	Raw data, event and AOI statistics	√	√	√
	Reading event statistics and reading AOIs	x	x	√
